EXECUTIVE SUMMARY

Results-driven cybersecurity postgraduate with a strong academic foundation and hands-on experience in enterprise security operations through internship and security-focused projects. Committed to helping organizations strengthen their security posture, reduce cyber risk, and protect critical information assets

EDUCATION

JAIN (Deemed-To-Be University)

Bangalore, Karnataka

Master of Computer Applications Specialization: **Information Security and Management System**

2024 – 2026

Current CGPA: 8.71/10

BGS First Grade College

Mysore, Karnataka

Bachelor of Computer Applications (BCA)

2021 – 2024

CGPA: 9.25/10

CERTIFICATIONS

- **CompTIA Security+ SY0-701** CompTIA
- **Google Cybersecurity Professional Certificate** Coursera
- **Security Operations Professional** Palo Alto Networks
- **Intro to Splunk** Splunk

SKILLS

- **Technical Skills:** Information Security, Network Security, SIEM Monitoring, Log Analysis, Incident Response, Malware Analysis, Phishing Analysis, SOAR Fundamentals
- **Tools:** Splunk, Wazuh, Nmap, Nessus, Wireshark, Zeek, VirusTotal
- **Programming:** Python
- **Soft Skills:** Communication, Critical Thinking

PROJECTS

Cloud-Based Honeypot SOC Platform for Threat Detection and Security Monitoring

- Built a cloud-based Honeypot SOC platform capable of collecting and analyzing real-world attack data for security monitoring
- Developed a centralized dashboard for real-time visualization of security events, attacker geolocation, log analysis, and threat intelligence

Splunk Enterprise Setup and Data Ingestion

- Set up and configured Splunk Enterprise for log analysis, monitoring, and security event detection, including custom indexes for efficient searching
- Ingested data via ZIP uploads and deployed Splunk Universal Forwarder to collect and forward logs from remote machines for threat identification and response

Wazuh Installation and Agent Deployment Lab

- Installed and configured Wazuh for security monitoring, deploying agents in endpoints to improve threat detection
- Integrated Wazuh Agent with Wazuh Server by generating and executing installation commands

INTERNSHIP

Cybersecurity Intern - Redynox | Jun 2025 – Jul 2025

- Conducted vulnerability assessments and web application security testing using Nmap, Nessus, and Burp Suite, identifying security weaknesses and supporting remediation efforts
- Monitored security events, analyzed logs, assisted in alert triage, and supported incident investigation

CONFERENCE AND ACHIEVEMENTS

- Presented research on a multilayer DDoS detection and prevention framework integrating AI-based anomaly detection and adaptive traffic filtering (**Jain University, 2025**)
- **1st Place** – “**TRIVIDHA 2K24**” Intercollegiate **Technical Event**, Trinity College, Mysore
